Food Service Designer

Who we are:

- Disrupters. Intuitive, ambitious, driven, focused and responsive design led Architects and Interior Designers.

Why Southwick:

- Because we are reinventing the food and beverage scene in Charlotte and the Southeast. We are searching for design talent, irregardless of project experience, to bring their collective vision and passion to make an immediate impact in our growing firm.

Who this position is for:

- Food Service Equipment Specialist looking for a unique design opportunity working in a boutique hospitality Architecture + Interior Design Firm.
- Looking for an individual who is able to lead as a speciality while collaborating with the project team.
- An equipment designer who is focused on design, coordination and implementation - not sales.

What is expected of you:

- Proficiency and working knowledge in Revit specific to equipment design.
- Creative problem solver for unique and existing concepts.
- Ability to develop layouts, schedules and equipment booklets for complete project coordination.
- Ability to work with local vendors to procure equipment and contractors for equipment install.
- Basic understanding of codes + working knowledge of construction related to food service equipment.
- Ability to step in to support documentation with project teams on other aspects of the work as needed.

Criteria + requirements:

- Prior relevant experience in hospitality and retail food and beverage projects.
- Minimum 3 years' experience as a food service equipment consultant.
- Remote work opportunity with the ability to travel for project related work as required.

What we offer:

- Flexible structure and work environment.
- Competitive Salary + Benefits
- Paid time off + holidays
- Equal Opportunity Employer
